Boy Weather Prognosticator

Interested in weather, a 14-year-old boy, Roger Keenar, a Boy Scout, of Canaan, Conn., has set up his own weather bureau in his home and his predictions have been quite accurate, neighbors say. He has all the necessary instruments for recording wind, humidity, barometer pressure and precipitation. Roger became interested in weather through his scouting work and hopes to go on with his study, expecting to make it his profession later on in life.

Flour Exporter

For the past seven years Australia has been the world's largest flour exporter.

Coming To Daly City Theatre

The girls talk about romance in 20th Century-Fox's Technicolor musical, "Week-End in Havana," coming to the Daly City theatre, Thursday. Alice Faye gives the lowdown to Cobina Wright jr. as Carmen Miranda listens in on the conversation. It must be John Payne and Cesar Romero they're discussing.

DON'T TAKE THIS LYING DOWN . . .

When men are fighting and dying, you must do *your* part. Be sure you enlist your DOLLARS for DEFENSE. Back our armed forces—and protect your own life—with every single dollar and dime you can.

America must have a steady flow of money pouring in every day to help beat back our enemies.

Put Dimes into Defense Stamps. And put Dollars into Bonds. Buy now. Buy every pay day. Buy as often as you can.

Don't take this lying down.

Garden of Roses

A rose census by Park Superintendent William Nicholas of the 20,000 rose bushes surrounding the Rose Bowl at Pasadena, Calif., revealed that there are 87 kinds of roses represented.

Longest River

The Mississippi-Missouri, generally considered one river by geographers, is the longest in the world. From the fountain-head of the Missouri, in the Rockies on the southwest border of Montana, its total length is 4,221 miles. From the source of its other branch at Lake Itasca in northern Minnesota, the so-called Mississippi proper is 2,553 miles long. The second longest river is the Nile, 4,000 miles from its remotest headstream, the Kagera, which flows into Lake Victoria. The Amazon river in South America has the greatest basin—2,772,000 square miles.

Silver Lining

War has a silver lining for 84,000 who were on relief last winter in St. John's, Newfoundland. Its great newsprint and its wood-pulp and mine-prop industries have been revived with the closing of the Baltic. Iron, lead, and zinc mines are again operating, while enlistments in the navy, army and civilian forestry corps have also helped to reduce unemployment.

Too Shy

Fred Kral, 72 years old, is "too shy and embarrassed," according to his 64-year-old bride of Cleveland. So, Mrs. Kral freely admits, she not only did the proposing, but also reversed the usual process by bestowing a kiss on the blushing bridegroom at the end of the ceremony.

Oversupply of Oil

When there is an oversupply of oil in the crankcase the spark plugs are likely to foul quickly and cause the motor to misfire.

Women Healthier
According to medical authorities, women are healthier than men. For every man who reaches the age of 100, eight women attain that age.

Vanity Tray
A vanity tray is built into the top of a new bathroom clothes hamper.

Girls in Munitions
Girls in munitions factories in Germany clean shells to be used by their menfolk at the front.

German Language
The German language is spoken by a majority of the people in 15 of the 22 cantons in Switzerland.

Arctic Federal Theater
Murmansk, Russia, beyond the Arctic Circle, is to have a federal theater.

Oranges in Europe
Oranges were first brought into Europe from China by the Portuguese in 1547.

Mexico Bubble Glass
One of the favorite souvenirs of Mexico is the native bubble glass, with its swirling foamy colors.

Life in Japan
Latest statistics show the average length of life in Japan is 44 years for males and 46 for females.

Admit Tractor Parts
France will admit tractor engine parts into the country at reduced duties if they are to be used by farmers.

Modern Transportation
Motor transportation is rapidly replacing pack animals for hauling in Afghanistan.

Wild Rice

Wild rice contains 14.8 per cent protein, 9.3 per cent moisture, 2 per cent sugars, 1.5 per cent ash, 1.1 per cent fiber and small amounts of fat, phosphorus, potassium, magnesium, sulfur, calcium and chlorine, says the American Chemical society. The process of parching the seed, introduced by the Indians to facilitate removal of the hulls, reduces appreciably the content of fat, fiber, protein, total ash, magnesium, potassium and phosphorus. In a special test it was found that the vitamin B, content of three samples of wild rice seed averaged 1.67 international units per gram, whereas the average of the same three samples when parched was 1.32.

Labors of Hercules

The 12 tasks of great difficulty imposed on Hercules by the Argive king were as follows: "To slay the Nemean lion, kill the Lernean hydra, catch and retain the Arcadian stag, destroy the Erymanthian boar, cleanse the stables of King Augeas, destroy the cannibal birds of the Lake Stymphalis, take captive the Cretan bull, catch the horses of the Thracian Diomedes, get possession of the girdle of Hyppolyta, queen of the Amazons; take captive the oxen of the monster Geryon, get possession of the apples of the Hesperides, and bring up from the infernal regions the three-headed dog Cerverus.

Undaunted Courage?

Pat Hogan of Westwood, Calif., and Muriel Dwyer of Santa Cruz, went to Reno, Nev., to be married. Pat, after getting the license, was knocked down by an auto and his leg was fractured. Undaunted, he had the leg set at a hospital, summoned a clergyman and the marriage was performed on schedule at the bedside.

New Spotlight

Having a special lens and a prefocused 200 watt electric bulb, a new spotlight for amateur photographers is asserted to provide as much light as most 500 watt spotlights.

Antarctic Lemonade

Scientists have discovered a mixture of chalk and lemonade in mineral form at a depth of 12,000 feet in the Weddell sea of Antarctica. The scientists cannot explain how the citric acid of lemonade, heretofore found only in plants, came to be at the bottom of the Antarctic.

Pays Debt

L. B. Evans, a farmer of Alberta, Canada, pays his debts even if they are 18 years old. He sent a check for $90 to the city of Los Angeles for his hospital bill in 1923, at the pest house. The city wrote back that the treatments were free, but Evans refused to take back the money.

House of Cotton

The Farm Security administration is conducting experiments in the use of cotton as a building fabric. A house has been erected in Coffee, Ala., with roof and walls covered with cotton duck. The material is nailed to a smooth backing of plywood, plaster or composition board. It is painted with a mixture of white lead and linseed oil. The cost of such a house, including modern plumbing and electric wiring, is only about $1,350.

U. S. Army Organization

The United States army consists of the regular army, national guard and organized reserves.

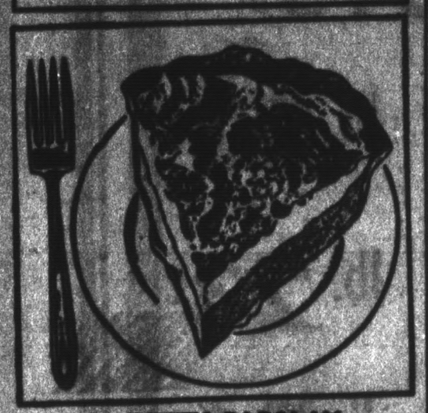
Try Our Quality Turkeys

A Real Year 'Rounder



By BETTY BARCLAY

We may honestly call the lemon a "real year 'rounder" or "a one hundred per cent fruit." Lemons are on the market all the months of the year. Thus, our favorite lemon pie is as easily made in summer as it is in winter. Likewise, a glass of hot lemonade for a cold, lemon juice for a stain, or lemon in a hair rinse is always obtainable.

In fact, the lemon actually goes the limit as a year 'rounder. The tree itself never takes a vacation. It is often possible to find buds, blossoms and fully ripened fruit on the same tree at the same time. No wonder the lemon pie is not a seasonable dessert.

Lemons are the only known source of Vitamin P, or citrin; and an excellent source of Vitamin C; a good source of Vitamin B_1; and lemons also aid digestion.

So, no matter when you read this, it's a seasonable time for any of those lemon recipes that have been put away in your file. Why not try one for tonight's dinner or tomorrow's lunch? Here's a favorite:

Lemon Shortcake

Beat 1 egg until very thick. Add ½ cup sugar and the grated rind of 1 lemon. Peel the lemon, removing all traces of rind. Then cut into small pieces, discarding the seeds and fibrous parts. Blend beaten egg, sugar, the grated rind, the juice and cut up pulp of the lemon and cool until serving time, at which time 2 tablespoons of cream are added. Serve between and over warm, split and buttered biscuits. A banana may be sliced into it for variety. (The quantities of sugar and cream may need regulating to suit taste.)

Diversified Ownership

One of the largest American oil producing companies supplies 21,000 retail outlets, yet it owns and operates but six of these filling stations, Axtell J. Byles, president of the American Petroleum Institute, reports.

Withdraw Autos

Private automobiles and buses were withdrawn from use in Denmark because of severe gasoline rationing. It was estimated 60,000 vehicles were affected.

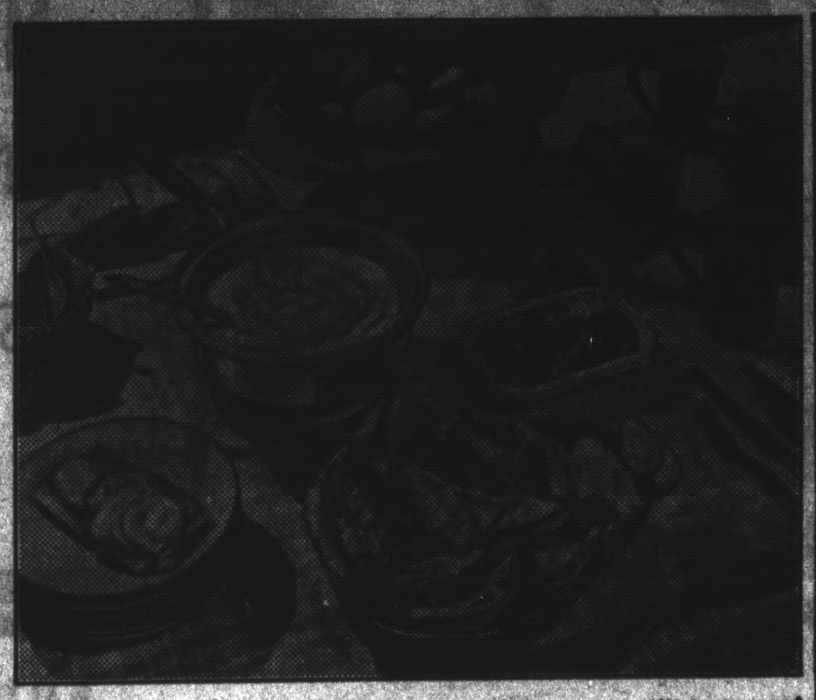
DOROTHY GREIG SUGGESTS CHEESE



Fluffy Tomato Rarebit—can be kept hot a long time and still taste good.

LOOK over your grocer's cheese counter. You will find suave cream cheese spreads, quick melting cheeses for cooking, sharp cheeses, mellow cheeses, herby cheeses, bulky cottage cheese, old time store cheese, white cheeses, smoky cheeses, chubby round cheeses, pineapple cheeses, pungent cheeses in pots . . . truly a fascinating array.

Entertaining? Here's proud fare for good-time refreshments. Running a bit close on the food budget? Here is food that packs an enormous amount of real nourishment, at moderate cost.

Then, too, cheese is rich in the same elements as milk—vitamins A, B, D and G, calcium and phosphorous—elements needed to make us strong, full of the ole Nick and rarin' to go.

The following cheese rarebit has beaten egg white in it which makes it fluffy and lessens the danger of curdling and stringiness. Also, it can be kept hot over lowered heat a long time and still be tasty.

Fluffy Tomato Rarebit

1 can condensed tomato soup
1 pound cheese (sharp)
1 teaspoon dry mustard
1½ teaspoons Worcestershire Sauce
2 eggs (separated)

Pour the tomato soup into the top part of a double boiler. Then add the sharp cheese which has been grated or ground. Heat and cook until the cheese is throughly melted, stirring and beating constantly. Then stir in the beaten egg yolks to which dry mustard and Worcestershire Sauce have been added. Fold the beaten egg whites into the hot mixture. Serve on toast or crackers. Serves 5.

This cheese omelet becomes something extra-special because of the delicious asparagus sauce served over it.

Cheese Omelet with Asparagus Sauce

4 eggs
4 tablespoons water
1 teaspoon salt
¼ teaspoon pepper
4 tablespoons grated cheese
2 tablespoons butter

Beat the eggs slightly, just enough to blend yolks and whites, then add water, cheese and seasonings. Melt butter in hot omelet pan, pour in the egg mixture; as it cooks, lift with spatula, letting the uncooked mixture run underneath the omelet until it is all of creamy consistency. Increase heat so that it may brown quickly. Fold and turn out on hot platter. Serves 5-6.

Asparagus Sauce

1 can condensed asparagus soup
½ cup milk

Empty the asparagus soup into a saucepan and stir well. Then add the milk and heat, but do not boil. Serve the hot asparagus sauce over the cheese omelet.

Another Year — Another Cake

By Frances Lee Barton

HERE'S a special cake dedicated to Nineteen Forty-Two. Serve it before, on or after the first of the year, and you'll serve it later on.

New Year's Cake

2 cups sifted cake flour; 2 teaspoons double-acting baking powder; ½ teaspoon salt; ⅔ cup butter or other shortening; 1½ cups sugar; 3 eggs; ⅔ cup milk; 1 teaspoon vanilla.

Sift flour once, measure, add baking powder and salt, and sift together three times. Cream butter thoroughly, add sugar gradually, and cream together until light and fluffy. Beat eggs until very thick and light; add to creamed mixture and beat well. Add flour, alternately with milk, a small amount at a time, beating after each addition until smooth. Add vanilla. Bake in two greased 9-inch layer pans in moderate oven (375° F.) 25 minutes, or until done. Spread Seven Minute Frosting between layers and on top and sides of cake. Write "Happy New Year" on top of cake with melted chocolate, using a toothpick or fine pastry brush. Decorate edges with clusters of small red cinnamon candies and pieces of citron.

Perfect Temperature

Colossal cave, near Benson, Ariz., has been explored for 20 miles. It is without moisture and the temperature remains at 72 degrees the year around.

Home Work

Since the invasion of Holland and Belgium, members of the senate committee handling army and navy affairs have taken to holding all-the-weekend evening meetings in each other's homes to brush up on the facts about Uncle Sam's defenses, with high United States military experts invited in as "teachers." The speed with which the senate has acted on national defense measures is taken as evidence that the senators are apt pupils and learn fast.

Most Spanish Spot

The most Spanish spot under the American flag is the romantic city of Ponce, on the southern coast of the United States territory of Puerto Rico. Although Ponce was the first city to be entered by the Americans who took Puerto Rico in 1898, it has been the last to give up the Latin heritage it derived from its Conquistadores. English is spoken widely in Puerto Rico, but Spanish is the prevailing language in this stronghold of old Castile.

Ticket Trickery

If you can get a traffic ticket "fixed" in your town the chances are that more serious offenses are also being condoned, according to the National Consumers tax commission, whose tax reduction drive seeks additional municipal economy and efficiency.

Hot Handle Holder

Made of a heat insulating, non-absorbent rubber, a holder has been invented to be slipped over the hot handles of cooking utensils.

Betty Barclay's Jelly Shelf

GINGER AND RIPE PEAR JAM

4 cups prepared fruit
½ cup diced crystallized ginger
7½ cups sugar
1 bottle fruit pectin

To prepare fruit, peel, core, and crush completely or grind about 3 pounds fully ripe pears. Dice about ¼ pound crystallized ginger.

Measure sugar and prepared fruit, solidly packed, into large bottle. Add ginger, mix well.

Bring to a full rolling boil over hottest fire. Stir constantly before and while boiling. Boil hard 1 minute.

Remove from fire and stir in bottled fruit pectin. Then stir and skim by turns for just 5 minutes to cool slightly, to prevent floating fruit. Pour quickly. Paraffin hot jam at once. Makes about 11 glasses (6 fluid ounces each).

Homes for Poor

Benjamin Mason, Philadelphia Negro, on relief, won $150,000 in an Irish sweepstakes, and promptly took his winnings and put them into a housing project for 71 families, thus replacing a slum block. The Housing authority advanced the remainder of the money.

Geniuses Were Dull

Most of the world's geniuses were not bright children, but were quiet, dull, or shy, according to Dr. George Sarton of Carnegie Institution of Washington, recognized as the leading historian of science.

Florida's Edible Fish

Of the more than 200,000,000 pounds of fish caught in Florida waters annually, little more than one-third are of the edible variety, according to R. L. Dowling, state supervisor of conservation. The non-food fish, mostly menhaden and sharks, are used in the manufacture of fertilizer, oils and novelties, Dowling explained.

Unwanted Silk

Because of the low American demand for raw silk, the fiber has been piling up unsold in Yokohama and Kobe, and reelers are trying to sell so as to get cash to buy cocoons.

Ancient Decorations

Shell, crystalline spar, bone, ivory were all employed by C... clents for architectural decor... On these hard substances, th... orists could produce excellent... signs.
